ColoreScience - Make Up Take Out Camouflage Collection

Product ID: 19195

Helps prevent sunburn. Higher SPF gives more sunburn protection. Retains SPF after 80 minutes of activity in the water. Provides high protection.

SPF 20 Foundation and Bronzer (All even, Per-fekt' and In The Wild): Apply colore, coverage and SPF 20 with the ease of a brush stroke. These versatile foundations and bronzers are rated "Very Water Resistant" and feel weight-less. They work with your own chemistry to create the camouflage needed for your skin imperfections. Yellow (All Even) covers redness and apricot (Per-fekt' and In The Wild) cover blue and brown discoloration.

Line Tamer-Trial Size: This skin primer smoothes the surface of the skin so mineral coverage is faster and longer-lasting. Use to calm, comfort and cover redness.

Taklon Concealer Brush: This tool allows the exact placement of minerals to completely camouflage skin discoloration. The synthetic bristles are soft on the skin and carry the minerals to create amazing coverage almost instantly.

Blusher/Blender Brush: The natural pashmina goat bristles will assist in blending the edges of your camo application for a natural skin finish.

All Sales Final - No Returns or Exchanges.

Retail Price: \$55.00

Usage:

Apply generously and uniformly before sun exposure, repeat application after perspiring, immersion in water or toweling. Works best on moisturized skin. Let moisturizer dry before applying. Be sure to completely cover all exposed areas. Do not skimp. Read directions on enclosed insert before use.

Step 1 Blend with Fingertips: Blend small pearl-size amount of Line Tamer across face and neck with fingertips. Apply first to areas where redness is most evident. The warmth of your fingertips will spread the texture evenly.

Step 2 Shake and Twist: Shake the product into the cap and then twist the cap open.

Step 3 Press and Tap: Press the side of the Taklon Concealer Brush into the cap to work the colore(s) into the brush, and then tap off any excess. Apply to skin with side of brush to achieve coverage desired.

Step 4 Brush and Blend: Use the Blusher/Blender Brush to feather edges, so the layer of minerals used as camouflage become invisible. Skin should look flawless for hours.

ColoreScience - Make Up Take Out Light As A Feather

Product ID: 19196

Helps prevent sunburn. Higher SPF gives more sunburn protection. Retains SPF after 80 minutes of activity in the water. Provides higher protection.

Colorescience SPF 20 Foundation: Apply colore, coverage and SPF 20 with ease of a brush stroke. This versatile foundation is rated "Very Water Resistant" and feels weight-less. It covers better than traditional liquid foundations. It works with your own chemistry to create a perfect match to your skin tone.

Colorescience SPF 20 Bronzer: Give your skin a rich, healthy glow with this SPF 20 and "Very Water Resistant" bronzer. Apply with a light touch and buff all over the face for a safe sun-kissed appearance! This bronzer can also be used as a contour to create a natural highlight.

Colorescience Finishing Powder: This perfectly clear powder can be used alone or over makeup to blend and ensure a smooth, matte finish. Formulated with rice starch, the most oil-absorbing active, this powder will mattify and protect all skin tones.

Professional Application Brush: This professional, retractable brush has natural, tapered bristles designed to hold just the right amount of minerals for a fool-proof application and flawless finish every time.

All Sales Final - No Returns or Exchanges.

Retail Price: \$55.00

Usage:

Apply generously and uniformly before sun exposure, repeat application after perspiring, immersion in water or toweling. Works best on moisturized skin. Let moisturizer dry before applying.

Be sure to completely cover all exposed areas. Do not skimp. Read directions on enclosed insert before use.

Step 1 Shake and Twist: Shake the product into the cap and then twist the cap open.

Step 2 Twirl and Tap: Twirl the brush into the cap to work the colore into the brush, then tap off any excess.

Step 3 Brush and Blend: Brush the pigment onto the face, applying to contour areas first, then lightly blending the rest of the pigment overall. Use bold strokes for contour areas, medium strokes to the general face area and very light strokes in the T-zone area.

ColoreScience - Wild to Mild Soothing, Smoothing skin Bronzer

Product ID: 19194

Wild to Mild is the sister product of Line Tamer with the exact same base and ingredients, but with the added benefits of bronzing minerals and rice peptides. Called Wild to Mild, this was created as an after-sun product, to calm down burned skin, and to take it from wild (burned) to mild (soothed). Originally formulated to work with loose minerals, this product gives a "no makeup", casual look which is great for sports and everyday activities.

All Sales Final - No Returns or Exchanges.

Retail Price: \$45.00

Usage:

Blend all over face, neck and eyelids for a bronzed look, to soothe burned skin, and to even uneven skin tone. Layer mineral pigment if desired.
