Physicians Complex Product Line

Physicians Complex - Lip Enhancer

Product ID: 20450

Physicians Complex Lip Enhancer is formulated to increase the size and enhance the color of the lips on a short-term and long-term basis. This formula contains a vaso dilator and a chain of peptides. The vaso dilator is Niacin, a Vitamin B derivative that increases blood flow and improves circulation to the lips. The peptides, which are amino acids, with continued use will stimulate the production of Collagen and Hyaluronic Acid in the lips for a long-term lip plumping after 29 days of continued use(2-3 times per day). A special polymer coating has been added, which encapsulates and delivers the active ingredients into the lips. This product is ideal when used as a booster to enhance the results of lip injections or lip augmentation. It can also be used as a standalone retail product. To further enhance this formula, Retinol and Vitamin E has also been incorporated to rejuvenate and protect the lips. Size:1/4 oz Tube with applicator with an average of 150 applications.

Retail Price: \$59.00

Usage:

Apply the Lip Enhancer three times per day (morning, noon & evening) for 29 consecutive days in order to achieve long-term lip plumping. Continue using three times per day to maintain the results or as directed by your physician. For short-term lip plumping apply every 1- 2 hours. After application, wait 5 minutes and apply your favorite lip liner and lipstick if needed. It is normal to experience a slight tingling sensation when this product is applied.

Physicians Complex - Manual Microdermabrasion Cream

Product ID: 20451

An amazing patient home care product designed to improve the appearance and texture of the skin. This product utilizes the same diamond shaped magnesium oxide crystals used with some microdermabrasion machines. This formula is excellent to smooth fine lines, wrinkles, and clear acne prone skin. This formula is excellent when used in conjunction with a skin bleaching product to help lighten pigmented skin. This cream can be used in conjunction with a microdermabrasion machine treatment. It can also be a stand alone product. for in between in office treatments. It is also excellent to use as a home care maintenance product after you complete a series of microdermabrasion machine treatments. Ideal for the face, neck, hands and body. The results are amazing and can be seen and felt after each use when used as directed.

Retail Price: \$59.00

Physicians Complex - Physicians Complex 6% Skin Bleaching Cream

Product ID: 20452

A unique formulation combining a blend of three well known bleaching and skin lightening agents: Hydroquinone, Kojic Acid Dipalmitate and Bearberry Extract. This product is designed to lighten skin discoloration and pigmentation.. Hydroquinone is proven to lighten or brighten age spots, brown spots, melasma and other skin discolorations or pigmentation problems. Kojic Acid Dipalmitate is an improved form of Kojic Acid. It has the ability to reduce the activity of tyrosinase present in the human skin. this process will inhibit melanin formation in the skin. Bearberry Extract is an exciting ingredient that represents an important advancement in the category of skin lightening agents. The primary mechanism of action involves tyrosinase inhibition. One of the main components of Bearberry is Arbutin. Once Arbutin comes in contact with the skin it converts itself into Hydroquinone. This skin bleaching product not only has the ability to lighten existing hyperpigmentation, but it will also inhibit future melanin formation. This is accomplished by inhibiting the activity of tyrosinase present in the human skin. Thus, this novel two tiered approach results in a more preemptive and long term skin lightening than is possible from other conventional skin lighteners,. This formula is guaranteed stable from oxidation for two years.

Retail Price: \$49.00

Usage:

Apply to clean skin twice daily (AM & PM). Or use the product as directed by your physician or skin care professional. Desired results are achieved with consistent use of this product. Application of sunscreen SPF 30 or higher is mandatory on a daily basis.

Physicians Complex - Physicians Complex Antioxidant Bruise Cream

Product ID: 20457

Formulated to improve the appearance of bruising associated with cosmetic surgery. This professional strength cream is formulated with Arnica, Emu Oil, Vitamin E and Green tea Extract. Arnica has the ability to increase blood circulation in order to expel trapped fluids in the skin. Emu Oil acts as a moisturizer and as a transdermal carrier to provide an improved delivery system. Green Tea Extract is known as an antioxidant and contains a bioflavonoid called Vitamin P that is needed to maintain healthy skin and to protect from harmful free radicals. The formula is ideal to use with all cosmetic facial and body surgical procedures. The Bruise Cream is also excellent to use with liposuction, laser resurfacing, sclerotherapy, Botox, collagen, dermal fillers and other related procedures. For best results, apply the Bruise Cream three times daily to the affected area for two weeks before and two weeks after the surgical procedure. Also, It seems to be useful to prevent and reduce bruising on tender, fragile skin; and patients taking anticoagulants.

Retail Price: \$49.00

Our Price: \$44.10

Usage:

For cosmetic procedures, apply the Bruise cream three times daily. For best results, apply to affected areas for two weeks before the procedure and for two weeks after the surgical procedure. For other general bruising, gently massage into affected areas of the skin twice daily. Use this product as directed by your physician or skin care professional.

Physicians Complex - Physicians Complex Peptide Eye Cream

Product ID: 20455

Combines a high potency peptide complex of Matrixyl 3000 and Argireline. This rich, moisturizing eye cream also contains various specialty ingredients, extracts and herbs such as Hyaluronic Acid and Arnica to help further rejuvenate sun damaged skin. The Hyaluronic Acid hydrates the skin while promoting increase cellular turnover and collagen production. This peptide eye cream offers excellent anti-wrinkle efficacy and it also inhibits future new wrinkle development. The results are amazing when used as directed.

Retail Price: \$49.00

Usage:

Apply to clean dry skin twice daily. Gently massage to eye area in a slow upward motion. Or use as directed by your physician or skin care specialist.

Physicians Complex - Physicians Complex Peptide Serum

Product ID: 20453

PHYSICIANS COMPLEX Peptide Serum combines a high potency peptide complex of Matrixyl 3000® and Argireline®. The Peptide Serum also contains Red Marine Algae, Aloe Vera, Algae Extract, Hyaluronic Acid, Sodium PCA and the super potent anti-oxidant Green Tea Extract. This serum repairs and rejuvenates sun-damaged skin. It also improves the appearance of fine lines and wrinkles. The Hyaluronic Acid hydrates the skin while promoting increased cellular turnover and collagen production. This peptide serum offers excellent anti-wrinkle efficacy and also inhibits future new wrinkle development. The results are amazing when used as directed.

Matrixyl 3000® is a new anti-aging ingredient that helps reduce the appearance of fine lines and wrinkles. This double peptide complex provides a stronger anti-aging effect on the appearance of skin as it stimulates Hyaluronic Acid production for greater moisture retention. This keeps the skin's cellular matrix plumped, normalized and smoothed. In combination with the breakthrough transdermal technology delivery system, Matrixyl 3000 helps to minimize the appearance of expression lines such as crow's feet and creases under the eyes. Due to peptide stimulation of increased cell turnover, skin appears softer and firmer.

Argireline® is a topical ingredient that has been scientifically proven effective in reducing wrinkles and preventing the formation of new lines. Argireline® is a patented Hexapeptide (six naturally occurring amino acids) that has proven to inhibit two internal processes that strongly contribute to the formation of fine lines and wrinkles. First, the SNARE complex, a natural formation of proteins in aging skin that stimulate neurotransmitters, provoking facial muscle contractions, thereby causing wrinkles and lines. Next the overproduction and release of catecholamine-hormones, such as adrenaline, which affect the sympathetic nervous system and cause wrinkles through repetitive facial movements. By inhibiting the SNARE complex and overproduction of catecholamine, the skin smoothes and new lines are never formed.

Retail Price: \$59.00

Usage:

Apply to clean skin twice daily (AM & PM). Gently massage to treatment area with a slow upward motion, or use as directed by your physician or skin care specialist. Desired results are achieved with consistent use of this product.

Physicians Complex - Physicians Complex Tissue Growth Factor

Product ID: 20454

PHYSICIANS COMPLEX Tissue Growth Factor contains a high potency combination of Tissue Growth Factors, Peptides, Olive Oil, Homeostatine, Coenzyme Q-10, Soy Proteins and Coconut Endosperm for an unprecedented level of wrinkle reduction. This formula contains Palmitoyl Tripeptide-3, a new peptide that comes from a complex known as SYN-COLL. This new high-technology peptide is a deep penetrating bio-active ingredient that increases collagen production via TGF-Beta by 119%. It also speeds up cell renewal, improves and helps repair aging skin. Wrinkles are significantly reduced and the appearance of the skin is improved. Olive Oil is high in polyphenols; a class of powerful antioxidants that are essential to healthy skin and when applied topically causes the skin to appear smooth and more radiant. Homeostatine is a new seaweed extract that fights dryness and boosts the skin's elasticity. The addition of the Coenzyme Q-10, Soy Proteins and Coconut Endosperm all contribute to a stronger tissue structure, enhanced facial smoothness, improve skin structure for healthier, younger looking skin.
